MEDICAL BILLING MADE EASIER

MEDICAL BILLING ERRORS ARE MORE COMMON THAN YOU MAY THINK. APPROXIMATELY TWENTY PERCENT OF ALL MEDICAL BILLING CLAIMS HAVE ERRORS, DELAYING PAYMENT AND CAUSING UNNECESSARY CONFUSION. FORTUNATELY, MANY PATIENTS ARE ENJOYING GREATER PEACE OF MIND THESE DAYS. THEY KNOW THAT THEIR MEDICAL CLAIMS WILL BE FILED ACCURATELY—WITHOUT REJECTIONS OR DELAYS FROM THEIR MEDICAL INSURANCE. THIS FREES MEDICAL OFFICE STAFF TO DO WHAT THEY DO BEST. TAKING CARE OF PATIENTS, WHILE ENSURING THAT PHYSICIANS GET PAID FASTER AND IN FULL, IS A NEW ELECTRONIC BILLING SYSTEM CALLED PXPRT. DEVELOPED BY PRACTICE X-PERT, IT'S A HAND-HELD, POCKET PC- AND WEB-BASED ELECTRONIC DATA COLLECTION SYSTEM THAT ELIMINATES THE INEFFICIENCIES OF TRADITIONAL PAPER FORMS. THE P-XPERT SYSTEM MAY BE A WINNING PRESCRIPTION FOR MANY PHYSICIANS, INDUSTRY EXPERTS AGREE. WITH THIS SYSTEM, A CLAIM CAN BE FILED IN HOURS, INSTEAD OF DAYS OR EVEN WEEKS.
